

2020 SoCal Conference - Call for Service

The goal for the committee is to make the creation of the conference a positive, growth-filled experience using the group conscience process. We will break new ground in making the conference more accessible and chock-full of recovery.

While LA CoDA is hosting the SoCal conference this year, it is a group effort: members of all intergroups are welcome to participate.

If service at this level feels "outside my comfort zone", that's excellent! Service is about making areas outside our comfort zone part of our comfort zone. Annexing wider comfort, if you will. It is an excellent way to grow in recovery, and carry the message to the Codependent who still suffers.

Come experience the Twelve Traditions at work, practice healthy communication, and enjoy fellowship with other codependents!

We will be making use of conference calling and web-based collaboration tools.

Submit your name and information via the survey linked at SoCalCoDA.org or LACoDA.org - everyone is welcome to give support in any capacity: Leadership, planning, subcommittee members, workshop or special session facilitators, day-of service... and more! Your contribution is valued and appreciated!

You can also scan the QR code to go directly to the survey!
